

engaged active independent seniors

Computer Help for Seniors

Facilitated by experts from the Living Connected Team

Tuesday & Thursdays 9:30-11:30am, Angels Room, off the Foyer, iAccelerate
(the rusty building at the University of Wollongong Innovation Campus, Squires Way)

Tuesdays' Dropin Sessions are 1-on-1 help with individual problems

Bring your own laptop, ipad, tablet or smart phone or use one of ours

Thursdays' Themed Workshop Program:

November 16 Introduction to Email

Learn the what, when, where, why and how of emails. If you already have an email, bring your address and password. If not, we'll help you set one up to send a message.

November 23 Keyboard, Mouse & Touchscreen Skills

Learn the many different ways of interacting with your digital devices.

November 30 Family History hands on

Learn to use software to create your family tree and the Internet to search for information about your ancestors.

December 7 Introduction to Publishing

Learn to use templates to create flyers and greeting cards (for Christmas!)

December 14 Introduction to Social Networking

Use social media to connect, to plan your Christmas events and to exchange greetings, pictures and videos with family and friends

Cost \$10 (or \$5 for those with a pensioner or seniors card)

Please book or let us know you are coming via

Facebook: <https://www.facebook.com/livingconnectedillawarra/>

Following a research-based program, Living Connected assists seniors to learn to use their digital devices so that they can remain independent, connected and engaged

We focus on what you want to do, not on the technology itself
