

LIVING CONNECTED NEWSLETTER

In this Issue:

- Energy Australia Grant
- Glimpses around our Network
- Pitching at IAccelerate
- Plans for themed workshops

Energy Australia grant

Living Connected has just received funds from the EnergyAustralia Tallawarra community grant program to go towards “workshops that will assist people with mental disabilities to learn new skills and actively engage with technology”. We are finding that our approach to digital inclusion with elders can also apply to other groups struggling to cope in the digital world.

Glimpses around our Network

From l to r, pictures from our wonderful groups at MACI, CTC Sussex and the Portuguese club, Warrawong.

Pitching at IAccelerate

Our super girl Kim can not only answer the phone, arrange rosters and otherwise herd cats. She has taken Living Connected to this year's iAccelerate Pitch Final on July 19. Finger's crossed that she can go all the way!

Plans for themed workshops

Due to many requests we will resume our workshops on popular themes beginning in August. Watch our website for details coming soon.
