# Home Visits Free in 2019

With the receipt of a Federal Government grant, Living Connected is able to offer its home service free of charge in 2019. This will apply to anyone over 50 on the NSW South Coast from Bulli to Bega.

Ring, text or email to book a visit from one of Living Connected's team of approved and trained mentors who will provide a personalised, integrated and continuing service to assist with a client's computer, tablet, phone and home IT setup.

We focus on what each client wants to do, not on the technology
