## In this Issue:

- Interns and Students
- Community Events
- Successful Alumni

## Interns and Students

A great advantage for Living Connected is its relationship with the University of Wollongong. Last year we had 2 Interns, Hayden and Abby and help from MARK321 students. This year we have 2 new Interns, Will and Jimmy who will help us with our Get Online Week events at Unanderra and Woonona-Bulli. We also have a small team of philosophy students studying what we do.

## Community Events

We have held two Community sessions with the Tuross Heads Carers Group in the Eurobodalla. This provided information and hands on help

Further south, in beautiful Merimbula we held a most successful event with our partner Gemma from Silver Service a resident at the Bega Innovation Hub. Our guest speaker was Philip Smith from Bendigo Bank, talking of online banking.

## Successful Living Connected Alumni

Living Connected is proud of its support for team members who work with us while they are applying for permanent jobs. Nicki is the most recent team member whose experience with us helped her to a job, in her case with TAFE. Thanks Nicki for all your mentoring. Our learners will miss you, particularly those at Unanderra Community Centre. Our references for Igor, Hayden, Abby and Laura have also led to more permanent work.
